

## Sweepers

# 1250

## E - DP - P - P - D

### PowerBrush

Main brush with special "V" shape, allows maximum performances of debris collection.

Self-levelling mechanical system for an always perfect adherence between brush and floor.

Dust microfiltration up to 3 micron through special panel filter.

Special flap activated from driver's seat for large debris collection.

Easy to use thanks to intuitive commands.

Deactivation and re-start of working functions simply by traction pedal (Battery / Dual Power).

## Exclusive technologies and motorisations

### Battery

Extremely large battery compartment. Available with non maintenance Gel type **Power Battery** batteries and **BLS** standalone charger that includes **TCL** technology, allowing best recharge management of batteries that can double battery life time.

### Dual Power (Petrol)

Innovative hybrid power system which permits a double use of the machine, with battery and with combustion, allowing the use in any kind of application.

### Combustion (Petrol / Diesel)

Available in petrol or diesel powered motorisations, including variable hydraulic traction power drive system.

Filter shaker with automatic option. Intervals can be programmed through electronic board on battery and Dual Power versions.

Debris hopper of great capacity, easily removable sections for discharge operations.

Main brush and filter replacement without tools.

Easy to use thanks to intuitive commands.

Great quality motors, equipped with preventive protection systems.

## Main technical characteristics

### Power supply on different versions

- **Battery:** 24 V system
- **Dual Power:** Honda 6.5 HP motor integrated with 24 V 80 A generator
- **Petrol:** Honda 5.5 HP motor
- **Diesel:** Yanmar 4.6 HP motor

### Traction

- **Battery/Dual Power:** electronic type on front wheel, 16% climbing rate
- **Petrol/Diesel:** hydrostatic type on front wheel, 16% climbing rate

### Filtering system

- **Standard filter:** panel type
- **Optional filters:** panel type in washable polyester or polyester fabric for heavy duty applications

### Other characteristics

- Polypropylene standard brushes
- Waste container with removable sections
- Hour counter display

### Easy maintenance

Easy access to internal compartments and to all components simply tilting top cover.

### Control panel

Protected and waterproof controls, large multilingual display, with hour counter. E/DP version with filter shaker activation menu and programmed service menu.
