

LSU155/255/275/355/395

When professional power is needed

- commercial wet and dry vacuum cleaners

PART OF THE NILFISK GROUP

VIPER

Model description: First number stands for number of motors, second two numbers tells the tank size.
LSU135 is equipped with one suction motor and a 35 liter tank capacity

LSU155/255/275/355/395

Volume, suction power and durability

The Viper LSU series are powerful wet and dry professional vacuum cleaners that is easy to use and has a robust design. The machines are available in 4 different tank sizes and various motor alternatives so that you can pick exactly the size and power that suits your cleaning needs.

The larger trolley mounted machines come with a drain hose mounted so you can easily empty the tank without taking off the motor top.

All machines are equipped with sturdy rear wheels and rotating front wheels which makes them light and easy to maneuver.

- For wet or dry vacuum application
- Easy to use and service
- Optimal suction power
- Robust tanks in stainless steel or plastic
- Cable storage
- Different tank sizes with different motor alternatives

Robust handle with cable storage hook and individual switches for the suction motors

Easy storage of accessories

Drain hose for easy emptying of the container
